EURO INDUSTRY BODIES BACK CO-PRODUCERS

UK regional funds Screen South and Skillset, in partnership with Cine Regio and sales association Film Export UK, launched the new Cine-Euro co-production training programme at the Edinburgh International Film Festival on June 23. The nine-month programme will help eight UK producers develop, market, finance and find partners for European co-productions. The scheme includes one-to-one consultations and training seminars. Producers will also attend Sarajevo's CineLink, the London Film Festival, the Berlinale and two further European festivals. UK producers with co-production experience will be partnered with each producer on the scheme.
