## Introduction

We are delighted to present to you the first edition of *supporting and co-producing animation in the european regions*. We hope it will inspire you to work with the wealth of talent, creative studios and production companies based in the regions of Europe.

The booklet looks at partnership and funding opportunities for animation projects provided by 14 regional film funds.

The funds are all members of the CineRegio network of 43 regional film bodies, which has been an active and committed participant in the advance of our vibrant, talent-driven European animation sector.

Among many initiatives, members have created AnimarcoRegio, to share knowledge and actively promote the creative, cultural and economic potential of animation in Europe.

We are excited about working with great animation projects and we hope this booklet will inspire new partnerships that will contribute to the continued growth of one of the most dynamic sectors in Europe.

**Charlotte Appelgren**  
General-Secretary, CineRegio
